

2026 Open Enrollment Training Schedule

January - December

PID Tuning & Advanced Process Control Techniques

Learn how to tune PID controllers and apply advanced process control techniques at our hands-on, instructor-led training. Our modular courses let you take the training that best meets your needs in the format you prefer, either virtually or in-person.

Class Format	Date	PID Controller Tuning (1 Day)	APC Techniques (1 Day)	Model-Based Control (1 Day)	Power Gen & Boiler Tuning (2 Days)	
Virtual Interactive	February 3-4, 2026	Feb. 3	Feb. 4			
Virtual Interactive	April 14-17, 2026	Apr. 14	Apr. 15		Apr. 16	Apr. 17
Virtual Interactive	May 12-14, 2026	May 12	May 13	May 14		
Virtual Interactive	September 15-16, 2026	Sept. 15	Sept. 16			
Virtual Interactive	October 20-21, 2026	Oct. 20	Oct. 21			
Virtual Interactive	December 8-10, 2026	Dec. 8	Dec. 9	Dec. 10		

Since 1985, ControlSoft has been counted on to help our customers achieve smoother, more reliable process control. The challenges you face occasionally are the things we deal with every day, in your industry and across a dozen others. By helping companies make improvements to their plant availability, production efficiency, operational safety and environmental compliance, we continue to provide world-class control solutions.
